Vanessa,

Please let me know if you need any additional information.

1. If Mr. Murthy will no longer be working in his current capacity after certification, to whom will SkyLink's key technical personnel report?

SkyLink's key technical personnel will report to Joshua Marks, President or Kenneth Carlson, CEO in accordance with the organizational charts originally provided.

2. According to Mr. Murthy's resume, he was President of BLR Group for 9 years. What is the business of this company?

BLR Group provides airlines assistance with flight operations management, including dispatch and command and control centers. In addition, BLR assists airlines with FAA certification, flight operations audits, information security and airline systems integration.

3. Will Mr. Murthy continue to be employed by SkyLink after certification? If so, will he continue to hold a senior level position with the company and what position would that be?

It is expected that Mr. Murthy will leave the Company once certification and certain other FAA related matters are complete. This would probably be towards the end of the first quarter 2005.

4. Are both Mr. Murthy and Mr. Malik U.S. citizens. If not, please indicate their citizenship. Mr. Murthy and Mr. Malik are both US citizens for whom completed I-9s are on file.

Amy E. Rogers
Assistant General Counsel
SkyLink Airways, Inc.
